VESTFROST SOLUTIONS IS YOUR PREFERRED PARTNER

High environmental standards have always been a cornerstone at Vestfrost Solutions. We employ numerous initiatives to reduce costs of product usage and to minimize environmental impact. This is valuable to our customers, who can sleep with a clear conscience, knowing that they buy sustainable, clean refrigerators and freezers from a responsible partner.

Vestfrost Solutions is a global developer and manufacturer of innovative and efficient refrigerators and freezers for the professional market. We strive to set new standards within optimized solutions for professional utility. With more than 50 years' experience, we have strong records within customized manufacturing supplied to the global professional industry. Our continuous focus to improve have made a number of models available with low noise cooling systems, fans and compressors. Moreover, we can adapt monitoring equipment to your cabinet and offer an energy saving program that suits you. Do not hesitate to contact us for a non-committally talk about your needs for optimized cooling and freezing solutions.

VESTFROST SOLUTIONS MERCHANDISING CABINETS

*“Professional optimized and
efficient display cabinets.”*

M SERIES Display Cabinets

Vestfrost Solutions' innovative M series glass door cabinets is the perfect choice to display your products. A built-in ECO function together with the optimized cooling system and hydrocarbon refrigerants save energy and reduces your carbon footprint. Integrated LED light in the door frame offers full exposure of the stored contents while still maintaining a low operational cost. The flexible and robust steel shelves can easily be adjusted to fit your products.

MF SERIES Display freezer

Vestfrost Solutions MF 180 is used to display frozen items of food. The frost-free freezer defrosts automatically at regular intervals, thus preventing stored items from being covered in frost or sticking to each other. The heated door ensures that the glass is kept free of condensation and secures visibility. MF 180 can stand alone or with advantage be placed side-by-side with the identically designed upright refrigerator M 180.
